# SCHOOL REPORT.

---

On retiring from the School Board I most heartily thank the children and parents for the courteous manner in which I have been treated. If I could have taken more of my time for the work I might have done better and enjoyed the work more.

Our schools during the spring term were interrupted and the progress checked by sickness on the part of pupils and teachers, especially on the West side, so the result was not as good in some districts as we had hoped to make it. Some parts of the town made good progress. The fall term throughout the district should be called a success with regard to the teachers and the progress of the pupils. No better term was expected and a more general degree of satisfaction I have not witnessed before in my experience on the board.

There is to be an article in the warrant in regard to joining other towns and engaging a Superintendent of Schools and should this article prevail I think it would be for the interest of the schools at a small cost to the town. It should result in a more even grade and a better course of study.

Schools No. 8 and 10 were again united this fall, resulting in a better course and longer term. We leave the year to be laid away with the past, endeavoring, we hope, to better improve the future.

E. H. SANBORN, *Chairman of School Board.*
